

Citra-Klean™

Heavy-duty Biodegradable Emulsified Citrus Concrete Cleaner

APPLICATION GUIDE

SURFACE PREPARATION

Remove by scraping any heavy accumulations of grease, grime, etc. from the surface. Apply CITRA-KLEAN™ to the floor or stain at approximately 150 ft. ²/gal. (3.7 m²/L). (See the dilution chart for recommended concentrations.

Spread uniformly over the surface and allow to penetrate 5-10 minutes. Scrub contaminated area with a stiff-bristle brush or, preferably, a power floor scrubber. A black nylon brush is recommended for optimum performance.

Stripping acrylic coatings will require heavier applications (50 ft. ²/gal.) (1.2 m²/L) and possibly additional treatments to thoroughly remove. Rinse with water and squeegee or vacuum away residue.

Stubborn stains may require additional treatments.

LIMITATIONS/PRECAUTIONS

Because CITRA-KLEAN™ is highly concentrated, protective gloves, boots and goggles are recommended. Do not use on rubber, resilient, or asphalt tiles or surfaces. **DO NOT ALLOW TO FREEZE!** If freezing takes place, call your local distributor. Harmful if swallowed. If ingested drink 2 glasses of water and induce vomiting. Contact a physician.

CAUTION - COMBUSTIBLE Contains Citrus Turpines!

KEEP OUT OF REACH OF CHILDREN! DO NOT take internally. Avoid prolonged contact with skin. If splashed in eyes, wash repeatedly with clean water and call a physician. Keep away from heat, sparks and open flame.

RECOMMENDED SAFETY EQUIPMENT: Rubber gloves, goggles and, if applied in areas of poor or inadequate ventilation, use mine safety appliances, mask and canister: ORGANIC VAPOR MARK (No. 457081) ORANGIC VAPOR CANISTER (No. 77705GAM)

THRESHOLD LIMIT VALUE: 100 PPM. Ventilation system should be capable of exchanging total air volume in application area in 30 minutes or less.

Avoid hazards by following all precautions found in the MATERIAL SAFETY DATA SHEET (MSDS), product labels and technical literature. Please read this information prior to using the product.

STORAGE

CITRA-KLEAN™ should be stored in tightly sealed original factory containers. Store in a horizontal position to prevent moisture accumulation on the drum head.

PROPERTIES

Odor	Citrus
Color	Clear/Amber
Biodegradable	Yes
Toxicity	Non-toxic
Boiling point	212°F (100°C)
pH	5-7
V.O.C. compliant	yes
film	none
foaming/phosphates	none
clarity	clear

DILUTION CHART

100% Concentration

Heavy stains/coatings (i.e. rubber tire marks, curing compounds)	no dilution
Common industrial dirt, grime	1 part CITRA-KLEAN™ to 5 parts water

(Will turn white when diluted with water)

(Field test to determine optimum concentration for your specific cleaning application.)
