PRODUCT / APPLICATION GUIDE

PACKAGING

CLEAR LIQUID RELEASE™... 5 gal. pail

DESCRIPTION

CLEAR LIQUID RELEASE™ is a clean parting agent between stamping tools and either polymer overlays or poured concrete. Although CLEAR LIQUID RELEASE™ is used as a cleaner alternative for powder release agents when stamping concrete, it is a necessity when stamping polymer overlayments. CLEAR LIQUID RELEASE™ also prolongs tool life by decreasing the friction between the stamping mats and the concrete. Surface washing or removal of CLEAR LIQUID RELEASE™ is not necessary, as this product will evaporate.

ADVANTAGES

- Uniform coloring can be accomplished
- Ideal for use in interiors where powder release is prohibitive.
- Allows you to see imprint when stamp tools are listed in case re-texturing is required.

USE

CLEAR LIQUID RELEASE™ is designed for use on decorative concrete stamped overlays and fresh pour concrete projects.

COVERAGE

Approximately 200 ft². per gallon for concrete and 175 ft². per gallon for polymer overlays.

APPLICATION

Apply CLEAR LIQUID RELEASE™ with a pump-up type sprayer to the tools (usually once) and to the surface to be stamped. Only cover an area that can be stamped within approximately ten minutes or re-application may be required.

LIMITED WARRANTY NOTICE
